## Are you ready to explore the St. Louis River Water Trail?

Habitat restoration & sediment remediation are underway at these **St. Louis River Area of Concern** sites. You can help these projects succeed.

- ❖ Stay away from construction equipment
- ❖ Protect native vegetation
- ❖ Protect underwater structures & the river bed

**Stay safe:** watch for low clearance at causeways, culverts, & power lines.

For more information or to request a project tour or presentation, please contact one of these AOC Coordinators:

Melissa Sjolund  
218-302-3245  
[melissa.sjolund@state.mn.us](mailto:melissa.sjolund@state.mn.us)

Barb Huberty  
218-302-6630  
[Barbara.Huberty@state.mn.us](mailto:Barbara.Huberty@state.mn.us)

Primary AOC funding support is provided by the Great Lakes Restoration Initiative, with oversight by the U.S. Environmental Protection Agency.
