

The St. Louis River Alliance (SLRA) is a membership organization committed to supporting the resiliency of the St. Louis River.

As river stewards, we are the voice of the River, working together to protect, restore, and enhance the St. Louis River. We envision a clean and healthy River with a thriving ecology, economy and community.

The SLRA has been given the privilege to manage the

St. Louis River Estuary National Water Trail as one of its programs.

Currently, SLRA is convening a formal National Water Trail Work Group that is implementing the Water Trail Master Plan.

For more information about the SLRA and the Water Trail Master Plan please visit:
